

Last Word, by Johannes from Germany, 2015

I have spent 14 months here in South Auckland, the coolest part of Auckland.

What I like about Alfriston College is, that all the students are super friendly to all new students coming to the College. I instantly felt welcomed and made heaps of new friends.

The subjects you can choose are so different from what I'm used to and there are so many to choose from. My favourite subject is Sports Leadership – it is all about sport and strategies that I can use my whole life.

Another cool subject is Outdoor Education. I learned so much about my environment, how to survive in it, how to plan a trip and guide a group.

The highlights with my host family were all the Warriors (NRL team) home games at Mt Smart Stadium. It is awesome to sit there and feel the crowd going with their team!

I strongly recommend Alfriston College, because of the students here, because of the cool teachers and mainly because of the culture of the school. There are so many different ethnic groups coming here and they all live together in a friendly environment.
