Dear Parents / Caregivers

All Year 9, 10 and Year 11 Learners - 2018

Over the past three years, Alfriston College has been on a journey of integrating digital devices into the programmes of learning to better align with the needs of 21st Century learning.

Unfortunately, the present model where school funding enables us to provide all our learners with digital devices has become financially unsustainable.

Fortunately, these three years have allowed us an opportunity to ensure that our infrastructure is capable of supporting school wide digital devices for all learners including BYOD (Bring Your Own Device) and that our staff are competent in providing programmes of learning making the best use of these devices. We plan that every Year 9, 10 and 11 learner at Alfriston College in 2018 will have access to a digital device. We will have a limited number devices that will be available for learners to borrow from our library for use during school hours.

If you wish to purchase a device, we have formed a partnership with Cyclone Computing, to provide ACER Chromebook C731E.

Provided in this package is a flyer outlining the Bundle Deal that Cyclone Computing has. Cyclone Computing has made the application process available via a portal indicated on the flyer. Alternatively, paper applications may be made via the form provided.

The completed Application and Direct Debit Forms MUST be returned to the Main Reception desk at Alfriston College.

Alternatively, feel free to purchase a digital device (preferably a C731E Chromebook) from any retail outlet of your choice or please contact me if you wish to discuss the availability of loan devices.

Yours faithfully

Wayne S Rangihuna
